CFD on a Cryptocurrency - Key Information Document

Everything You Need To Know About a CFD on a Cryptocurrency*

*CFDs on Cryptocurrencies are only available for Professional clients.

Purpose: This document provides you with key information about this investment product, specifically CFD on a cryptocurrency (for Professional Clients only). It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRIOR TO TRADING COMPLEX INSTRUMENTS SUCH AS CFDs IT IS CRUCIAL
THAT YOU FULLY UNDERSTAND ALL ASPECTS OF THIS PRODUCT.

Product: What is this product?

Type: A contract for difference ("CFD") is a leveraged contract entered into with Tickmill UK Ltd ("Tickmill UK") on a bilateral basis. It allows an investor to speculate or hedge on rising or falling prices in an underlying cryptocurrency through online trading platforms. An investor has the ability to buy (or go "long") the CFD to benefit from rising underlying cryptocurrency prices; or to sell (or go "short") the CFD to benefit from falling underlying cryptocurrency prices or not trade at all. The price of the CFD is derived from the price of the underlying cryptocurrency price. For instance, if an investor is long in a CFD and the price of that underlying cryptocurrency rises, the value of the CFD will increase and when the contract can be closed at profit Tickmill UK will pay the difference between the closing value of the contract and the opening value of the contract. Conversely, if an investor is long and the cash price of the underlying cryptocurrency falls, the value of the CFD will decrease; if the contract is then closed, the client will be debited with the difference between the closing value of the contract and the opening value of the contract. The use of leverage with CFDs has the effect of magnifying both profits and losses.

Objectives: Allows you to speculate on the price movement of an exchange rate or CFD without ever taking delivery of the underlying cryptocurrency over any period. The spread, financing and price movement all determine its profitability.

The objective of the CFD is to allow an investor to gain leveraged exposure to the movement in the value of the underlying cryptocurrency (whether up or down), without actually needing to buy or sell the underlying cryptocurrency. The exposure is leveraged since the CFD only requires a small proportion of the contract value to be deposited as initial margin and is one of the key features of trading CFDs.

CFDs do not have an expiry date and are therefore open-ended; hence there is no recommended holding period and it is at the discretion of each individual investor to determine the most appropriate holding period based on their own individual trading strategy and objectives.

Target Professional Investor: Small to large scale of professional investors with knowledge and experience of the industry who feel comfortable trading complex financial markets and who wants to trade with money they can afford to lose and have high risk tolerance. Prospective clients will understand how the prices of CFDs are derived, understand the impact of and risks associated with margin trading, its key concepts along with leverage and the potential to bear losses that may exceed deposits. Trading CFDs offer access to a range of markets. When trading CFDs, you have the potential to diversify your trading strategies as well as taking advantage of different opportunities across global markets.

Available 24/7 - from Monday 00:00 to Sunday 23:59 (MT4/MT5 server time).

What are the risks and what could I get in return?

Trading CFDs on margin carries a high level of risk and may not be suitable for everybody. The high degree of leverage can work for or against you due to market movement. Before deciding to trade CFDs, you should carefully consider your trading objectives, level of experience and risk appetite. Trading CFDs requires you to maintain a certain level of funds in your account to keep your positions open. It is possible for you to sustain losses that exceed your initial investment (deposit), therefore you should not deposit money that you cannot afford to lose and if there is a sudden adverse movement in the market you may be required to deposit additional funds at short notice. You should be aware of all the risks associated with CFDs and seek independent advice if you require further clarification. Please ensure you fully understand the risks and take appropriate care to manage your risk.

This risk indicator is a guide to the level of risk of CFDs compared with other financial products. It shows how likely this product will lose money because of market movements. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance of the product at a very high level.

Performance Scenarios

This key information document applies to any CFD on cryptocurrencies. For each trade you enter, you will be responsible for choosing the CFD on a commodity, when you open and close, the size of the trade (risk) and whether to use any risk mitigation features (such as stop loss orders). The scenarios shown below illustrate how your investment could perform.

Assumptions:

Cryptocurrency CFD	
Index Opening price	USD 6000
Trade Size (per CFD)	1
Margin %	2%
Margin Requirements (£)	USD 100
Notional value of the trade (£)	USD 6000

Scenarios:

Buy Performance scenario	Closing price	Price change	Profit/Loss	Sell Performance scenario	Closing price	Price change	Profit/Loss
Favourable	6090	1.50%	90	Favourable	-1.50%	5910	90
Moderate	6030	0.50%	30	Moderate	-0.50%	5970	300
Unfavourable	5910	-1.50%	-90*	Unfavourable	1.50%	6090	-90*
Stress	5700	-5%	-300*	Stress	5%	6300	-30*

*The loss is restricted to your account balance as we offer negative balance protection.

What happens if Tickmill UK Ltd. is unable to pay out?

In the unlikely event that Tickmill UK was to go into liquidation and we are not able to pay you what is owed, you could lose your entire investment. However, Tickmill UK segregates all Elective Professionals and non-TTCA Professional Client client funds from its own money in accordance with UK FCA's Client Asset rules Furthermore, the UK government backed Financial Services Compensation Scheme [FSCS] will protect eligible clients up to a maximum of £50,000. (Most individual clients, regardless of classification will be eligible). See <https://www.fscs.org.uk/> for more details.

What are the costs?

Trading a CFD on an any underlying cryptocurrency within Tickmill UK Ltd incurs the following costs:

CFDs on Currencies, indices, commodities, bonds, cryptocurrencies			
	Classic	Pro	VIP
Spread	From 1.6	From 0.0	From 0.0
Swaps	**	**	**

Commission***	0.0***	2 per side per 100K traded	1.6 per side per 100K traded
---------------	--------	----------------------------	------------------------------

Definition of costs:

SWAPS

- *SWAPS are determined by the overnight interest rate of each currency; the overnight rate is the interest rate that the banks would in theory lend and borrow from each other.
- A swap fee is charged when a position is held overnight. As an example, for FX, the swap charge is the interest rate differential between the two currencies of the pair.
** SWAPS can be seen on our website: <https://www.tickmill.co.uk/conditions/spreads-swaps> and in our platform.
- We are adding Mark up on that overnight interest rate (SWAPS).

SPREADS

- The difference between the buy (Ask) price and the sell (Bid) price. When a position opens, the spread "cost" is realized. Traders should note that in the event of low liquidity, spreads might significantly increase from their normal levels.

COMMISSION

- A commission "cost" is based on volume transaction and is one charge for both open and close a position. For example, a client open 1 lot of EURUSD, (The commission is 2 per 100k), as a result the client will be charge one time on the opening of the position 4 EUR (2 for open and 2 for close)
- "On ECN Pro account all commission charges are based on percentages (0.0020%) of the trade size in the base currency per side, and 0.0040% Round Turn.
- For example, if you open 1 lot EURUSD then the commission is 2 EUR per side and 4 EUR Round Turn.
For 1 lot GBPUSD it is 2GBP per side and 4 GBP RT.
For 1 lot AUDUSD it is 2 AUD per side and 4 AUD RT.
If you have USD account then 4 EUR, 4 GBP, 4 AUD will be automatically converted to USD. So, for example, if you open 0,01 lot EURUSD then the commission is 0,02 EUR per side and 0,04 EUR Round Turn. Calculation: 1lot=100000, 0.01 lot=1000. $1000 \times 0.0020\% = 2$. And $2/100\% = 0.02$ EUR per side or $1000 \times 0.0040\% = 4$. And $4/100\% = 0.04$ EUR RT.

*** Other fees may apply.

Liquidation Level

Any open positions you have on your account may be automatically closed if your available funds fall below 50% of the required margin to maintain those positions open.

How long should I hold it and can I take money out early?

There is no minimum period that you must keep this investment open and you can open and close it at any time while the market is open. You can request a withdrawal of available funds on your account during normal working hours and this will be processed the same working day or the next working day. There is no recommended holding period, no cancellation period and therefore no cancellation fees. However, overnight funding cost can eat away at long term exposures.

How can I complain?

If you have complaint, you should contact the Compliance department at Tickmill UK Ltd. by email at compliance@tickmill.co.uk or by post at our address in London: <https://tickmill.com/corporate-contacts/>. They will then issue you with an initial response letter and investigate your complaint. A copy of the Firm's complaints procedures can be found here: https://d1fyjtrsl71uh.cloudfront.net/documents/legal-documents/fca/complaints-procedure.pdf?_=1656588597. If you are not satisfied with the response, you may contact the Financial Ombudsman Service who will look into your complaint (<http://www.financialombudsman.org.uk>).
